

Dear colleagues,

A 4th edition of **BIOMECHANICS4REHAB** on-Line course, under the supervision of ESPRM is going to take place

The course main topic is **BIOMECHANICAL ASSESSMENT** as an important tool for PRM Physicians.

It is now open for enrollment through the following link:

<https://tienda.ibv.org/en/formacion/76-biomechanical-assessment-methodologies-to-improve-the-rehabilitation-process-4th-edition.html> (English version)

<https://tienda.ibv.org/es/formacion/82-metodologias-de-evaluacion-biomecanica-para-mejorar-el-proceso-de-rehabilitacion-4-edicion.html> (Spanish version)

The dates in which it is going to take place are, from the May 25 to July 24 2020 (40 hours in total)

The cost of the course is 247.93 + VAT (Total 300 €) and the IBV has generated a discount coupon for 5% of the basic amount for those students who come from ESPRM (ESPRM4R2018).

The platform managers are experts from the Biomechanics Institute of Valencia- Spain (IBV)

IBV is a technological centre focused on scientific research, technical assessment and training in the biomechanical field. The multidisciplinary team in the IBV includes engineers, medical doctors (PRM physicians among other), computer specialists, physicists, biologists, etc

The course is open to all PRM Physicians from all over the World

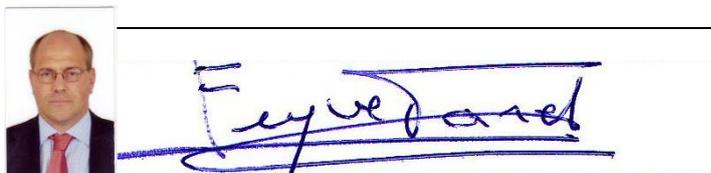

From ESPRM we consider that this course may be of great interest to Physical and Rehabilitation Medicine physicians and trainees, who will make us knowledgeable and users of these innovative technologies very valuable for our daily medical practice

With nothing else for the moment and being at your entire disposition for any clarification or doubt, I take the opportunity to greet you very sincerely

Enrique Varela-Donoso.

ESPRM delegate

ESPRM liaison officer for Biomechanis4Rehab course

A small portrait of Enrique Varela-Donoso, a man with glasses wearing a suit and tie, is positioned to the left of a large, stylized blue ink signature that reads "Enrique Varela-Donoso".
